

Come Join us to celebrate **World Breastfeeding Week 2015!**

The World Alliance for Breastfeeding Action (WABA) is pleased to announce that the slogan for WBW 2015 is:
BREASTFEEDING AND WORK: LET'S MAKE IT WORK!

This year marks the 25th Anniversary of the Innocenti Declaration 1990 which has been a landmark guiding document for improving breastfeeding practices worldwide.

Four targets were adopted, with the fourth target aiming *“to enact imaginative legislation protecting the breastfeeding rights of working women and establish means for its enforcement,”* still needing much more attention after over 20 years.

The WBW 2015 theme on working women and breastfeeding revisits the 1993 WBW campaign on the Mother-Friendly Workplace initiative. Much has been achieved in 22 years of global action supporting women in combining breastfeeding and work, particularly the adoption of the revised ILO Convention 183 on Maternity Protection with much stronger maternity entitlements, and more country actions on improving national laws and practices. Yet, after over 20 years, global monitoring on infant and young child feeding progress shows that the fourth Innocenti target is still the most difficult to meet! With the WBW 2015 campaign WABA and its partners at global, regional and national levels aim to empower and support ALL women, working in both the formal and informal sectors, to adequately combine work with child-rearing, particularly breastfeeding.
